

- ① Color The pieces + cut them out as you go ...
- | | |
|----------------------|---------------------------|
| H_2O = light blue | Pentose Sugar = dark blue |
| Base = brown | Fatty Acid = orange |
| Simple sugar = green | Amino Acid = Red |
| Glycerol = purple | phosphate = Yellow |
- ② You will not use all the pieces. Carefully pick up your scraps and recycle them!
- ③ Materials (per 3 people)
- Bag of colored pencils or crayons (see me if broken)
 - 2 pairs of scissors
 - 2 glue sticks
 - 3 pieces of printer paper
- ④ When finished, return all materials, clean up your area (including the floor) and answer the post-lab questions on the 2nd page.
